Workshops set for BLM permittees

3 hrs ago

ELKO – Ranchers who graze cattle on a Bureau of Land Management permit are invited to workshops slated in early June across northern Nevada.

“With the listing of the Sage Grouse as ‘not warranted’ now more than ever it is imperative to establish with state and federal agencies that proper grazing has and can have a positive influence on the sage grouse habitat,” stated a release from the Nevada Cattlemen’s Association.

The association, in conjunction with the BLM and the Nevada Department of Agriculture, have scheduled the workshops to share information and discuss how the Greater Sage Grouse Land Use Plan Amendment will apply to permittees.

The first workshop is at 5:30 p.m. June 6 in Ely. Elko’s workshop is at 2 p.m. June 7 in Great Basin College Room GTA130. Others are planned in Battle Mountain, Winnemucca and Fallon.

The Cattlemen’s Association can be reached at 738-9214, or visit www.nevadacattlemen.org.
